Summary

Front-End developer with deep knowledge HTML, CSS, JavaScript and the React framework, Redux/Redux Toolkit. I am a quick learner, motivated to learn something new and improve the skills I have already acquired

Projects

Portfolio

[GIT](#)

<ReactJS />

SPA is made with React in a minimalistic style with information about skills and developed projects.

Burger Shop

[GIT](#)

<ReactJS /> <Redux Toolkit /> <React Router /> <Axios />

Full-service store with all the necessary functions such as search, sorting, pagination. The shopping cart, adding and removing products, and switching to the product's personal page are also implemented

Modern Website

[GIT](#)

<ReactJS /> <Tailwind CSS />

SPA is built using ReactJS with a modern style and interface. There is also a responsive layout for mobile devices
